## **MEDIA RELEASE**

17 October 2023

### **Major refurbishment to begin on Port Huon pool**

Major refurbishment works will begin on the Port Huon Sport Centre (PHSC) pool on Wednesday 18 October 2023.

The project is the first of a planned series of service improvements to the facility.

Works include lining the pool with new tiles to provide better durability, lower maintenance requirements and a longer life.

Works are expected to be completed in readiness for the start of the new year.

While the pool will be closed during this time, other facilities in the PHSC, such as the gym and playing courts, will remain open.

“This is an important enhancement to our valuable community facility, and we appreciate the patience of the centre’s patrons during this time,” said Huon Valley Mayor Sally Doyle.

“We look forward to the facility better meeting the future needs of the Huon Valley community.”
