### **Find a defibrillator fast: Council launches new online tool**

Our website now provides crucial information about the use and locations of Automated External Defibrillators (AEDs) throughout the Huon Valley.

Find this page on our website at <https://www.huonvalley.tas.gov.au/defibrillator-locations/>

The page links directly to LISTmap, a comprehensive map of AED locations across the Huon Valley. The interactive map provides up-to-date information on all registered AEDs in Tasmania, allowing residents and visitors to easily identify the nearest defibrillator in an emergency. The map is published and kept up to date by the Department of Primary Industries, Parks, Water and Environment.

"In a cardiac emergency, every second counts. Knowing where to find the nearest defibrillator can be the difference between life and death," said Mayor Sally Doyle. "This new resource will help our community quickly locate these life-saving devices when they're needed most."
